

Highland/Newstead Phase III Homes

Project Profile: Multi-tenant

Owner: I-70 NNA L.P.

Architect: Grice Group Architects & Mak Architects, Inc.

Description: This project consisted of Low income rental housing with scattered sites throughout the neighborhoods. The units themselves consisted of six new family homes, five townhomes, and one duplex rehab. Each of these units contained approximately 1500 square feet of living space. The development is a joint partnership between I-70 Northwest Development Corporation and the North Newstead Association. The site selections, designs, building materials, landscaping, and craftsmanship all combined to allow these homes to blend with the character of the city neighborhoods in which they were placed.
