

QDOBA MEXICAN GRILL

Project Profile: Retail

Owner: QDOBA MEXICAN GRILL

Architect: Design +

Description: These approximate 2800 square foot tenant finishes are a particular challenge due to the fast track nature of these projects. Starting with only a shell we were able to have these Mexican Grills open in less than 8 weeks. We are happy to say that we have successfully completed eight of these projects. In several of these projects, we have also negotiated and successfully completed the shell for the landlord.
