

## St. Alban Roe School Remodel and Addition

---

Project Profile: Institutional

**Owner:** St. Louis Archdiocese.

**Architect:** Archimages.

**Description:** This project consisted of an approximate 10,320 square foot remodel along with an approximate 21,208 square foot addition of a new double gym. Due to the School's class schedule the remodeled area could not begin until April 15<sup>th</sup> but had to be completed for classes to resume on August 15<sup>th</sup>. The work in the remodeled area consisted of taking an existing gymnasium and adding a 2<sup>nd</sup> floor of classrooms along with converting the first floor to classrooms, a cafeteria, and kitchen area. The addition is a connector link with stained concrete floor and wood paneled walls along with a two story open ceiling structure and sweeping curved soffits. The new double gym has wood look rubber flooring with painted game striping and contains a curtain that can be brought down to divide the two spaces.
