

Fresenius Kidney Care, Jefferson County, MO

Project Profile: Medical

Owner: Fresenius Kidney Care North America

Architect: Christopher Kidd & Associates, LLC

Description: This Thirteen chair facility was completed in two phases. The first phase was to replace all the flooring along with painting and new nurse's stations as shown here. All casework was replaced along with new solid surface countertops and new sinks. The second phase was added to include new chases and water wall cabinets to the new wood grain look. All work had to be completed after hours and the facility had to be fully functional by the following mornings.
