

Fresenius Medical Care, Support Space, St. Charles, MO

Project Profile: Medical

Owner: Fresenius Medical Care North America

Architect: Christopher Kidd & Associates, LLC

Description: We enlarged the repair & refurbish area of the St. Charles County Acute Care facility. By doubling the size they are able to work on multiple machines at once. We added two handwashing sinks along with a state required eye wash and shower combination. Features included new resinous flooring with curbs to contain any spillage along with all new LED lighting and pull down electric. The walls are lined with both drains for the machines along with processed water and tap water.
