

Levy Residence

Project Profile: Specialty

Owner: Mont and Karen Levy

Architect: Tom Thomson

Description: This exclusive modern residence in Clayton Gardens boasts three finished levels totaling almost 7,000 square feet. Tom Thomson's design allowed the selective import of natural light through clerestory windows and full glass atrium doors. Maple hardwood floors and fir cabinetry offer a warm, comfortable balance to the energy of the illumination and the clean architectural lines. To obtain these balances, construction accuracy had to be of the utmost priority.
