

## Sunshine Ministries Men's Center

Project Profile: Special Project

**Owner:** Sunshine Ministries

**Architect:** Core 10 Architecture, Inc.

**Description:** This two story men's facility just recently completed is approximately 19,000 square feet of load bearing masonry and steel construction. The building consists of a partial basement that houses the utilities along with commercial laundry facilities and recreation room. The first floor has a professional kitchen with attached dining area along with offices and a chapel. The sleeping area for the men is on the second floor along with additional restrooms and showers. We are proud to have completed our fifth project for Sunshine Ministries.
